

# SMART CLINIC

SMART COMMUNITY CENTER  
Social-Cooperative-System

LÉGUAS SECRETAS  
UNIPessoal LDA  
SIR ANGEL HIGUERAS

# A MEDICAL CENTER NEAR YOU TO FIGHT THE CORONAVIRUS!

---

An efficient solution that adapts to the medical needs of  
populations that are geographically remote from care centres.

LÉGUAS SECRETAS  
UNIPessoal LDA  
SIR ANGEL HIGUERAS

## MISSION

---

To offer quality medical services and access to the most vulnerable populations or those that are geographically distant from health care centres.

Improving the quality of life of the communities and having a better control of the pandemic.

LÉGUAS SECRETAS  
UNIPessoal LDA  
SIR ANGEL HIGUERAS

## VISION

---

We use technology as a unifying tool, this allows us to relate knowledge and products to serve a community. We are committed to the citizen, putting all the physical and human means to offer the best accompaniment in the face of this epidemic crisis.

# WE INVOLVE DIFFERENT COMPANIES AND SERVICES

We joint different companies, offering an integral service with high standards of construction, human quality and supplies. Providing solutions designed exclusively for the specific needs of each client.

# COMMON SPIRIT HEALTH.

---

Provides clinical expertise and guidance for global services, including operations or quality/accreditation outcomes through remote or on-site consulting.

# PHYSICAL AND CHEMICAL PROTECTION AGAINST GERMS, VIRUSES AND BACTERIA ...

When we using **PROTECT 28** in the facilities of SMART CLINIC, is intended to prevent and protect against the constant contamination of spaces exposed to viruses and diseases, which survive on various surfaces (buildings, surgical equipment, contact surfaces, textiles ...)

The application of **PROTECT 28** es multifunctional friendly with the environment and health due to its light but effective composition (water-based and alcohol-free).

It kills and prevents the reproduction of multiple infectious agents, in a single spray for 30 days. It keeps the environmental free and safe avoiding being a constant source of infection as it happens in most hospitals and conventional medical centers.

A modern and efficient medical plan that integrates sterilization, coronavirus prevention, diagnosis and supplies of protective equipment

A care centre perfectly designed coronavirus prevention equipment and materials. Delivery time varies within 10-15 days.

The cost can be adjusted in relation to the construction of the centre.

# PRODUCT

# DESCRIPTION:

# MULTI-FUNCTIONAL

## SMART COMMUNITY HEALTH CENTER

It is designed as a smart box based on AI( artificial intelligent) , IOT( Internet of things) and SAAS (Software as a Service) techniques. With the most advanced up-to-date technologies, this is the first smart community hospital in the world that combines traditional pharmacy, clinic and hospital with Internet access. This product offers 24-hour self-service drug sales, on-site medical consultation, remote medical consultation, 24-hour physical examination, community first aid and chronic disease management, etc. Therefore, it can provide all patients with the closest and most convenient automated medical service solution, especially in this difficult time when we are looking to defeat the

COVID-19.

## DIFFERENT NEEDS, DIFFERENT USES

Due to the current crisis of the covid-19, the supplies are thought and designed for the geo-popular requirements of the place where it will be installed. We provide corona virus tests, masks that last for 30 days (due to **PROTECT 28** ), gloves, and biological isolation systems (PROTECT ISOLATOR SYSTEM). All this in proportion to the disintegration population and to the specific needs that the site requires.

It is conceived as an emergency center occasional, or as a long-term medical facility for communities without access to local medical support.

LÉGUAS SECRETAS  
UNIPessoal LDA  
SIR ANGEL HIGUERAS

The cost of the SMART CLINIC is between  
US \$ 80,000.00 / \$ 100,000 .00

(+ ESTIMATION OF PROTECTIVE ELEMENTS 28: MASK, COVID TEST, GLOVES,  
PROTECT 28 ETC,)

The delivery time of 100 SMART CLINIC  
is expected to be approximately 30 days (plus  
transportation).
