EPIDEMIC PROTECTION KITS

Our versatile 'Epidemic Protection Kit' for professional and personal use was specifically developed to provide a universal solution to a global problem. These kits enable the full 100% protection of one person in a variety of biologically hostile and dangerous environments. The ease with which such protection can be deployed is what makes this product so versatile given the urgency of the current global situation.

This is primarily due to the fact that AIM-X is in control of the entire supply chain via the ownership of the raw materials facilities, factories owned by its parent holding company in China, additional manufacturing facilities co-operating in a joint venture with AIM-X, the internal logistics and freight forwarding via its in house fleet of vehicles as well as the ownership of several private planes for the delivery

AIM-X Global LLP was created in response to a global crisis and thus carries with it a deep rooted duty of care to all of humanity. We treat our customers, partners and the planet with due respect.

Our commitment to this cause is evident in our financial model, whereby we will automatically donate 1% of our global turnover to the AIM-X Foundation.

The AIM-X Foundation has been set up to carry out all of AIM-X's CSR activities as well as additional work for the betterment of the future world that is unfolding before us.
