Corp

ELIMINATES VIRUSES  
A SOLUTION FOR SOCIETY  
THAT DEFEATS COVID-19

# PROTECT<sup>28</sup>

ANTIVIRAL - ANTIBACTERIAL- ANTIMICROBIAL  
LONG LASTING SURFACE PROTECTANT

## DURABLE ANTIMICROBIAL FINISH

- With one simple application protects surfaces for up to 30 days.
- Our unique coating technology **PROTECT<sup>28</sup>** is EPA/FDA approved for food contact surfaces because it kills without poison.
- Invisible coating reduces contamination, makes future cleanings easier, plus eliminates odor causing bacteria, mold, and mildew found in carpets, trash cans, bathrooms, and showers. we're even approved for fabrics!

**A WATER BASED AND ORGANIC PRODUCT.**

## HOW IT WORKS?

### CREATES A PHYSICAL AND CHEMICAL BARRIER

- Our technology controls microorganisms without chemical poison.
- **PROTECT**<sup>28</sup> relies on electrically charged particles that have a unique spiked molecular structure that naturally attracts microbes. In nature, most microbes carry the opposite electrical-charge so they are physically and irresistibly drawn into contact with **PROTECT**<sup>28</sup>'s pointed molecules.

## PROTECT<sup>28</sup>

- The bound unconventional antimicrobial technology, an organofunctional silane, has a mode of action that remains adherent to the surface -killing microorganisms as they contact the surface to which it is applied.
- The Active Protection Last For 15 Days.
- **KEEPS killing Covid 19** continuously.
- Once applied to the surface, the Technology does not migrate or create a zone of inhibition, so organisms cannot adapt and mutate. Because this technology stays bonded to the substrate, it won't cross the skin barrier, won't affect normal skin bacteria nor will not cause skin irritation.

**PROTECT<sup>28</sup>**

## WHERE IT CAN BE APPLIED?

It is ideal for any surface in production, processing and service facilities. It has a high cleaning capacity and the disinfectant power is perfect for common areas of high traffic, such as bathrooms, waiting rooms, hallways and public transport, stores, it also works in your house, schools and even on your hands...

Spread **PROTECT<sup>28</sup>** evenly on the palm (2-3 Sprays Each Side) or surface sufficiently and allow it to air dry. **Do Not Rub, Do Not Spread With A Cloth.**

## 1500 MASKS WITH 1 LITER .

- Long lasting antiviral, anti-microbial and anti-bacterial, COATING can be used for any physical belongings or facilities (buildings, vehicles, suitcases...)  
**Use to extend** the duration of disposable masks.
- Coverage per gallon is 1300 square feet (122 Sqm) sprayed or 1500 N95 masks per gallon of coverage.

# PROTECT<sup>30</sup>

MULTIPURPOSE- NATURAL- ALCOHOL FREE  
DISINFECTANT AND HAND SANITIZER

**PROTECT<sup>30</sup>**

## **PRA HOSPITAL DISINFECTANT THAT KILLS SUPERBUGS, VIRUSES AND ODORS.**

- **PROTECT<sup>30</sup>** uses aggressive oxidation to eliminate the genetic material of pathogens like Norovirus and TB. Is a **hospital disinfectant that kills superbugs, viruses, and odors.**
- **PROTECT<sup>30</sup>** not only kills the pathogen but destroys the molecules that make up the structures of the pathogen.
- Comprehensive testing conducted by EPA-recognized, third party labs, proves our effectiveness - killing not only the pathogen but also destroying the molecules that make up the structures of the pathogen.

## HOW IT WORKS?

### PRODUCING HYPOCHLOROUS ACID SOLUTIONS.

- **PROTECT<sup>30</sup>** produces a powerful antimicrobial solution that is both biodegradable and non-accumulative. We also produce FDA cleared Medical Devices for wound and skin care.
- A technologically improved salt solution passes through an electric cell to create an environmentally safe solution with powerful biocidal characteristics. When exposed to environmental conditions, anolyte solutions quickly degrade into salt and water leaving no ecological footprint.

**PROTECT<sup>30</sup>**

## WHAT IS PROTECT<sup>30</sup> HYPOCHLOROUS ACID?

- HOCl, hypochlorous Acid is the functional compound that makes our white blood cells, the Neutrophils, work.
- This compound reacts with gram positive and gram-negative bacteria like MRSA, pseudomonas, and TB period.
- HOCl reacts with enveloped and non-enveloped viruses like H1N1, HIV Norovirus and Rhinovirus.

- Spread protect30 evenly on the palm (2-3 sprays each side) or sur face sufficiently and allow it to air dry.
- Do not spread with a cloth.
- Do not rub.

**PROTECT<sup>30</sup>**

**PROTECT<sup>30</sup> HOCL IS A KILLER A COMPOUND,  
6X MORE REACTIVE THAN HYDROGEN PEROXIDE,  
80 TO 100X MORE POWERFUL THAN BLEACH**

- Humans and mammals are immune to HOCl.
- Humans produce the Antidote-Taurine, an amino acid, that is absent from bacteria and virus.
- Safer than Hydrogen Peroxide, will not harm human or animal skin.
- Safer than Hydrogen Peroxide, HOCl will not harm human or animal skin.
- It is Safe around the eyes and mouth with No harmful fumes.
- It is Safe for newborns.

# PROTECT<sup>28</sup>

ANTIVIRAL - ANTIBACTERIAL- ANTIMICROBIAL  
LONG LASTING SURFACE PROTECTANT

- Not bleach.
- No toxic for humans.
- HOCl is Non-carcinogenic -HOCl is Non-irritating.
- Safe for the environment.
- **Provides 8 hours of active protection**

# PROTECT<sup>30</sup>

MULTIPURPOSE- NATURAL- ALCOHOL FREE  
DISINFECTANT AND HAND SANITIZER

- Provides long-term control of viral and microbial growths on treated surfaces.
- Won't wash away or lose its effectiveness over time.
- Contains No heavy metals.
- Can be used on fabrics.
- A water-based product.
- **Provides 30 days active protection.**
- Can be used on fabrics.

# PROTECT<sup>28</sup>

kills the COVID-19  
constantly for 15 days on  
multiple surfaces or objects !

# PROTECT<sup>30</sup>

kills for 8 hours COVID-19  
keeping your hands and skin clean,  
safe and healthy & promotes  
healing of your skin.

# OUR PRODUCTS ARE:

EPA REGISTERED PRODUCTS AND ON THE LIST FOR COVID-19

- ✓ Eco Friendly.
- ✓ Non-toxic For Skin.
- ✓ Alcohol Free.
- ✓ Kills Bacterias, Virus And Microbials.

Make the world safe again by killing COVID19 countinuously while hugging your friends & recovering your lifestyle with active protection:

**PROTECT<sup>28</sup> & PROTECT<sup>30</sup>**, THANK YOU
